ADIYI ADIYI
XAVIER MICHEL
Software Engineer

Objective

Dedicated and skilled Software Engineer with 2 years of experience in web application development using the MERN stack, HTML, CSS, JavaScript, and expertise in Docker, VPS, and Odoo ERP frontend. Proven ability to analyze, design, and develop software applications. Seeking a challenging software engineering role to leverage my technical skills and contribute to innovative projects.

WORK EXPERIENCE

Junior Developer | internship

N.T.A | Yaounde - Cameroon   2020 - 2021

- Gained hands-on experience as a Junior Developer during a software development internship.
- Worked alongside senior developers to build web applications using Reactjs, and Nodejs.
- Assisted in design and development tasks, enhancing my understanding of the software development process.
- Contributed to team projects, demonstrating a strong commitment to learning and growth.

Full Stack Developer

Mercury-Tech | Yaounde - Cameroon   2022 - 2023

- Collaborated with cross-functional teams to develop web applications using React.js and Node.js.
- Designed and implemented responsive, user-friendly UI/UX using HTML, CSS, and JavaScript.
- Leveraged Docker for containerization and deployment processes, optimizing project efficiency.
- Conducted code reviews, identified issues, and ensured code quality and best practices.

Full Stack Developer

ShinTheo OÜ | Yaounde - Cameroon   2023 - 2024

- Developed web applications within the Odoo ERP system, ensuring a seamless user experience.
- Built robust backend applications using Node.js, enhancing overall system functionality.
- Worked closely with stakeholders to gather and document requirements and translate them into technical specifications.
- Implemented VPS solutions to enhance server performance and security.

ENGINEERING SKILLS

Analysis Skills

Modeling of software systems with analysis methods and modeling

Deployment Skills

Skills in deploying web applications using VPS, Nginx and Docker
